

TURNKEY EPC SERVICES

Energy Storage | Solar

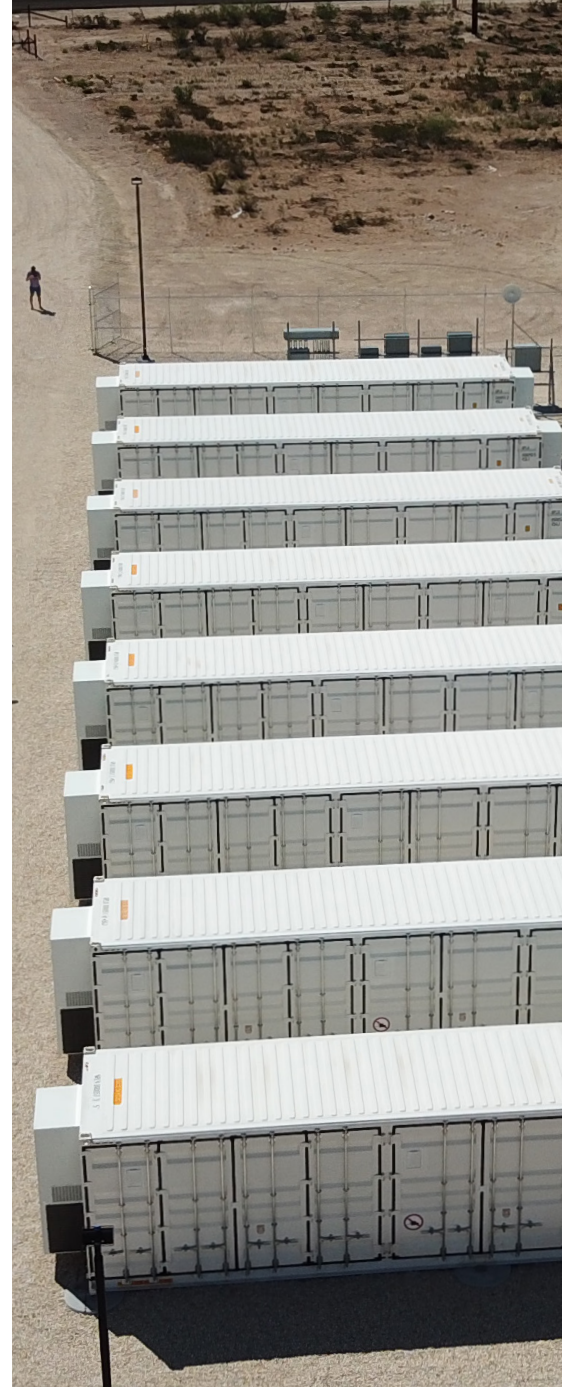

Energy Storage & Solar Made Easy

THE TRUGRID DIFFERENCE

TruGrid is a premier energy storage engineering, procurement and construction (EPC) contractor based in Houston, Texas. We specialize in utility-scale turnkey projects and operations & maintenance (O&M) services, focusing on the energy storage and solar markets.

Battery integration technology is at the core of our business. We proudly commission projects safely and at unmatched speed, demonstrating exceptional accuracy and expertise.

With our diverse technological capabilities and a leadership team that has unrivaled experience, we not only understand the complexities of the energy storage and solar markets but also anticipate and solve our clients' challenges before they arise. At TruGrid, we're more than just a contractor — we're a trusted partner dedicated to driving your success in the rapidly evolving energy landscape.

ENERGY LEADERSHIP EXPERIENCE**

Discover the Power of Integration

SEAMLESSLY CONNECT BATTERIES

- // In-house testing & simulations cut energy management system (EMS) commissioning times in half of industry standard
- // Cost-effective, off-the-shelf and customized solutions
- // Vendor agnostic (software, hardware, automation)
- // Rapid and on-time deployment of BESS
- // Comprehensive automation capabilities for all BESS applications
- // Comply with the highest safety and security standards

EPC+ integration energy storage & solar

Preliminary through detailed build-of-materials

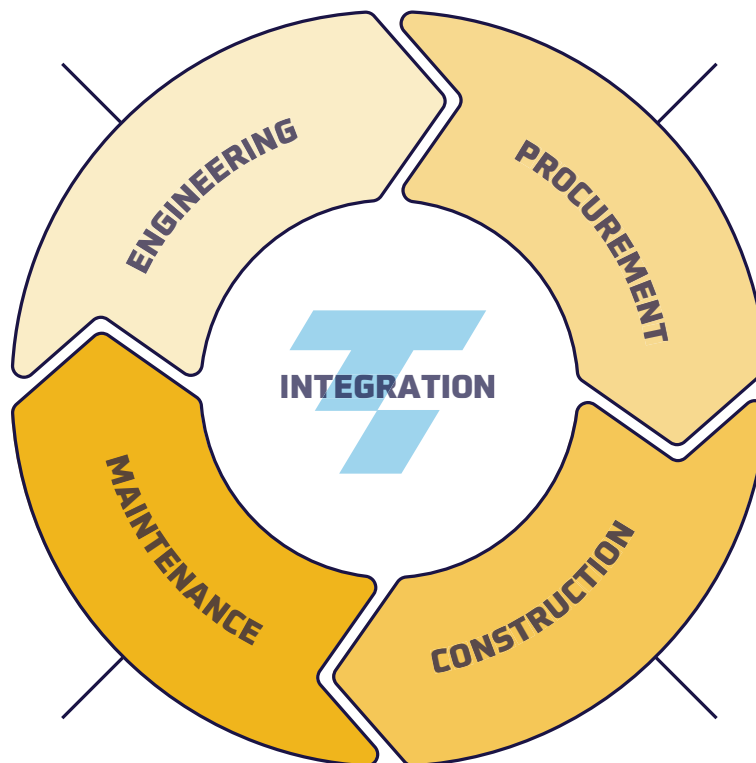

Utility support

Development of IFC package

Dedicated, highly trained technicians

LTSA and O&M agreements

Operating assets efficiently with availability in mind

Global strategic sourcing team

Compatibility with all technologies

Value chain through design for construction and manufacturing

Extended warranty capabilities

Standardized design process for optimized asset deployment

Best-in-class vendor pricing and warranty terms

Class-leading risk mitigation

Self-perform capabilities

TruGrid aims to lead the North American clean energy market in engineering, procurement, construction and integration for battery energy storage systems and solar.

Industry-Leading Integration

Our integration teams guarantee that each electrical component operates safely, securely, reliably and flawlessly, providing you with a cutting-edge energy system.

Global Supply Chain Excellence

At TruGrid, we lead the way by rigorously evaluating and qualifying the global supply chain for cost-effective and reliable solutions through strategic partnerships with top-tier suppliers.

Best-in-Class Project Execution

TruGrid always aims to advance the energy industry and improve process – leading to better results for our customers. Backed by safety-focused experts, we deliver projects on time and on budget.

A CULTURE OF SAFETY

Safety is key to your project's success. We implement the highest standards and only work with ISN-verified companies. Partnering with TruGrid ensures long-term cost savings, simplified processes and reliable services.

- // Eliminate recognized hazards and environmental impacts
- // Limit exposure to HSE risks
- // Exceed or comply with all regulations
- // Continuously improve our HSE system
- // Requirements to ensure safety for all employees and contractors

JODY SNODGRASS

Chief Executive Officer

Jody brings over 30 years of expertise in engineering, procurement and construction within the energy sector. As a visionary leader, Jody oversees all operations and corporate functions, ensuring the transformative and innovative execution of projects. His results-driven approach serves TruGrid's employees, customers and stakeholders by fostering a culture of excellence and sustainable growth.

JESSICA FEDDERSEN

Chief Financial Officer

Jessica brings over two decades of experience in financial transformation, system design, compliance and corporate accounting. Most recently, she held finance leadership roles at Danaher Corporation in Internal Audit, Corporate Finance and Finance Transformation. She has worked extensively with acquisition reporting and financial process improvement. She is a certified public accountant and has a Bachelor of Science in business administration from the Indiana University Kelley School of Business with a concentration in finance and accounting.

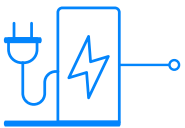

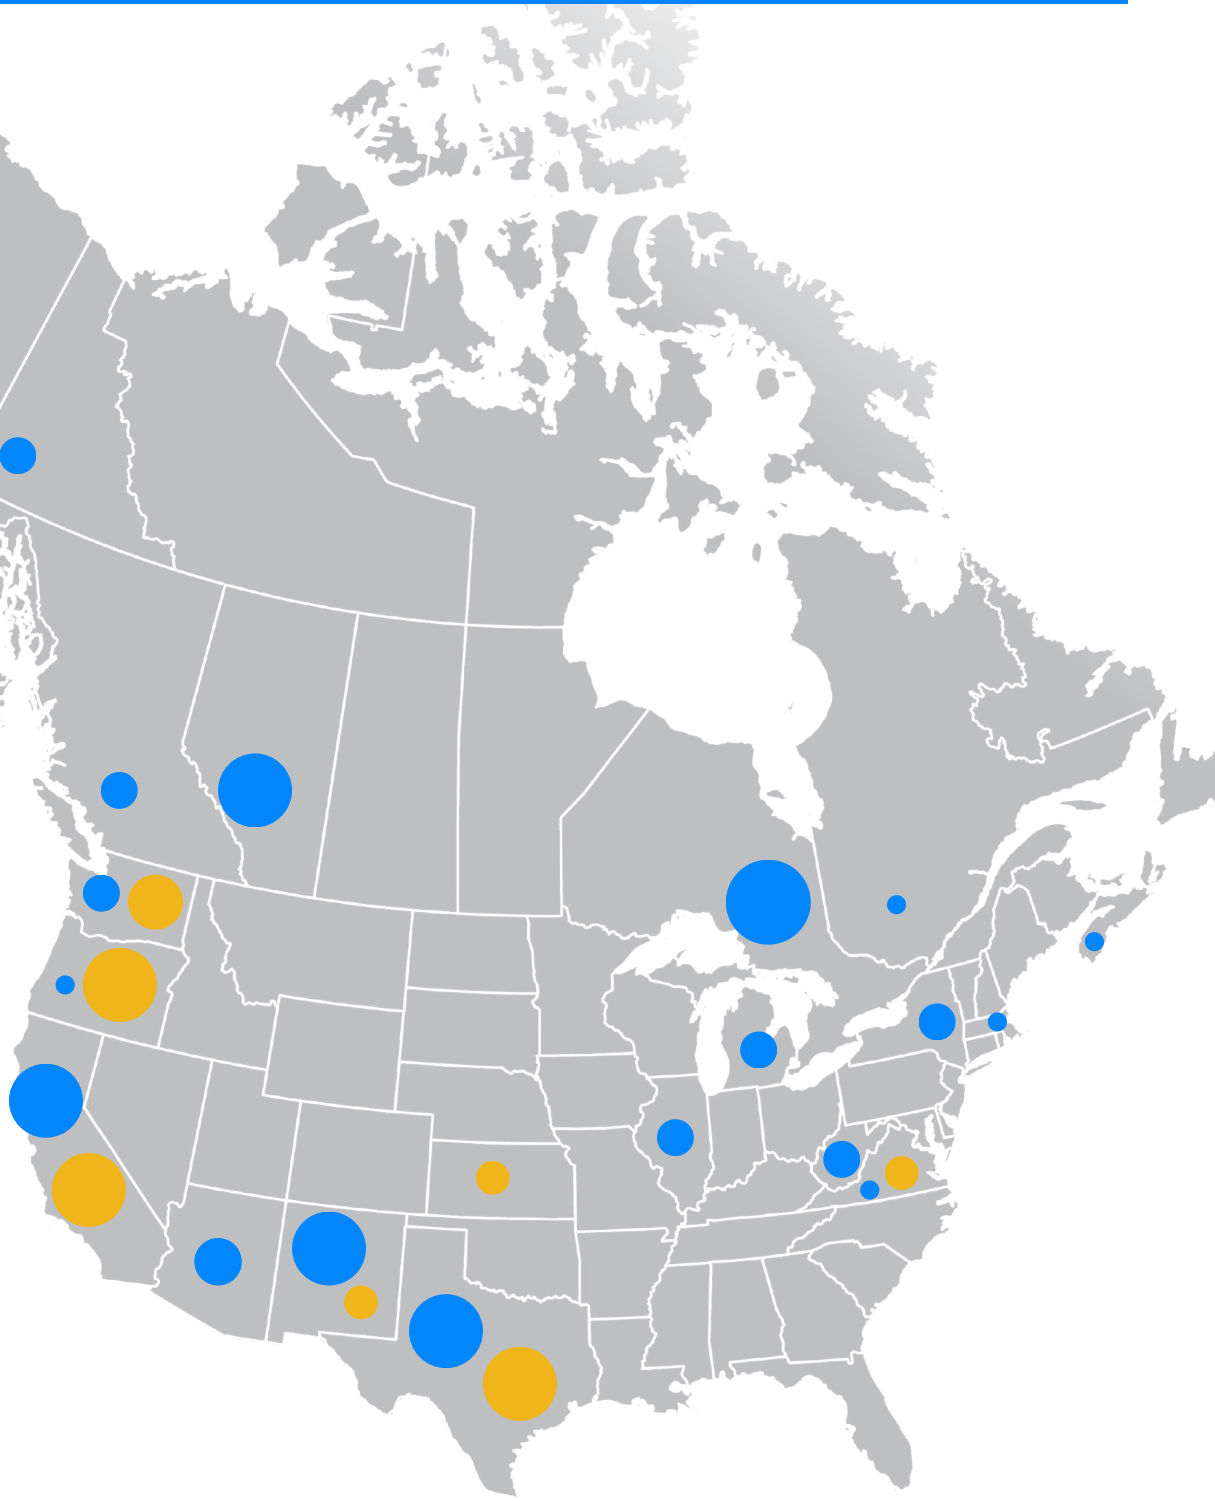

CHRIS FINLEY

Chief Commercial Officer

Chris is a seasoned professional with more than 20 years of experience in leading design, construction, management and business development teams in the renewable energy sector. Chris spearheads TruGrid's commercial strategy, leveraging the company's unique integration-focused EPC approach to maximize the performance of energy storage projects across North America. His dedication to a customer-centric approach drives strong partnerships and supports new entrants into the North American renewables market, positioning TruGrid as a leader in the industry.

THE TRUGRID TEAM HAS TURNKEY EPC AND O&M EXPERIENCE ACROSS NORTH AMERICA.
We have your back in the harshest of climates - from intense heat to arctic temperatures.
